

MiFID II product governance – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes, taking into account the five categories referred to in item 18 of the Guidelines published by ESMA on 5 February 2018 as well as the determination of the appropriate distribution channel, has been made and is available on the following website: <https://regulatory.sqmarkets.com/#/mifid2/emt> (the “Target Market”). Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the Target Market assessment and the suggested distribution strategy for the product; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the Target Market assessment) and determining appropriate distribution channels.

**2. RATINGS**

The Certificates to be issued have not been rated.

**3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER**

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Certificates has an interest material to the offer.

The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Certificates and Calculation Agent of the Certificates.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Certificateholders on the other hand cannot be excluded.

Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Certificates or possession of non public information in relation with them) and those of the Certificateholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Certificateholders.

**4. REASONS FOR THE OFFER AND USE OF PROCEEDS**

Not Applicable
6. **HISTORIC INTEREST RATES** (*Floating Rate Certificates only*)  
Not Applicable
7. **PERFORMANCE AND EFFECT ON VALUE OF INVESTMENT**
- (i) **PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT** (*Structured Certificates only*)
- The value of the Certificates and the payment of a redemption amount to a Certificateholder on the final exercise date will depend on the performance of the underlying asset(s), on the relevant valuation date(s).
- The value of the Certificates is linked to the positive or negative performance of the underlying instrument. The amount(s) to be paid is/are determined on the basis of the condition which is satisfied (or not) if the performance of the underlying instrument is lower than or equal to a predefined barrier performance. Performance of the underlying instrument can be floored and/or capped.
- The terms and conditions of the Certificates may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Certificates may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Certificates allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the final exercise date of the Certificates, postpone the final exercise date of the Certificates, early redeem the Certificates on the basis of the market value of these Certificates, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Certificateholders.
- Payments (whether in respect of principal and/or interest and whether at final exercise or otherwise) on the Certificates are calculated by reference to certain underlying(s), the return of the Certificates is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Certificates may be volatile and that they may receive no interest and may lose all or a substantial portion of their principal.
- During the lifetime of the Certificates, the market value of these Certificates may be lower than the invested capital.  
Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.  
**The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.**
- (ii) **PERFORMANCE OF RATE(S) OF EXCHANGE AND EXPLANATION OF EFFECT ON VALUE OF INVESTMENT** (*Dual Currency Certificates only*)  
Not Applicable

Legal form: Public limited liability company (société anonyme).</p> <p>Legislation under which the Issuer operates: French law. Country of incorporation: France.</p> <p><b>B.19/B.4b: Known trends affecting the guarantor and the industries in which it operates</b></p> <p>Societe Generale continues to be subject to the usual risks and the risks inherent in its business mentioned in Chapter 4 of the Registration Document filed on 8 March 2018, and in its updated version filed on 7 May 2018.</p> <p>In a context of firming world growth, several risks continue to weigh on global economic prospects: risks of renewed financial tensions in Europe, risks of renewed turbulences (financial, social and political) in emerging economies, uncertainties related to unconventional monetary policy measures implemented in the main developed economies, the rise in terrorist risks as well as of geopolitical and protectionist tensions. More specifically, the Group could be affected by: -</p> <p>renewed financial tensions in the Eurozone resulting from a return of doubts about the integrity of the monetary union, for example in the run-up to elections in a context of rising eurosceptic political forces;</p> <ul style="list-style-type: none"> <li>- fears regarding a possible tightening of international trade barriers, in particular in large developed economies (United States or, in the context of Brexit, United Kingdom for example);</li> <li>- a sudden rise in interest rates and markets volatility (bonds, equities and commodities), which could be triggered by inflationary fears, trade tensions or poor communication from main central banks when changing their monetary policy stance;</li> <li>- a sharp slowdown in economic activity in China, triggering capital flight from the country, depreciation pressures on the Chinese currency and, by contagion, on other emerging market currencies, as well as a fall in commodity prices;</li> <li>- worsening geopolitical tensions in the Middle East, South China Sea, North Korea or Ukraine. Further tensions between western countries and Russia could lead to stepping up of sanctions on the latter.</li> </ul>

	<p>- socio-political tensions in some countries dependent on oil and gas revenues and needing to adapt to reversal in commodities prices.</p> <p>From a regulatory perspective, H1 2018 was marked in particular by the European legislative process around CRR2/CRD5, therefore the review of the capital adequacy directive and the CRR regulation. This is expected to continue in H2 and include the subjects MREL (Minimum Required Eligible Liabilities) and TLAC (Total Loss Absorbing Capacity). However, the transposition into European law of the agreement finalising the Basel III reforms is not yet on the agenda as regards European legislative institutions: an impact study is to be launched by the EBA and will serve to draft the future CRR3 regulation. Other current subjects concern notably the review of the systemic capital buffer for systemically important banks, the ECB's expectations in terms of provisioning the stock of non-performing loans and the review of the regime for investment firms in Europe.</p>

Therefore, a potential conflict of interests may arise. In connection with the offering of the Certificates, the Issuer and the Guarantor and/or their affiliates may enter into one or more hedging transaction(s) with respect to a reference asset(s) or related derivatives, which may affect the market price, liquidity or value of the Certificates.</p> <p>The regulation and reform of “benchmarks” may adversely affect the value of Certificates linked to or referencing such “benchmarks”</p> <p>During the lifetime of the Certificates, the market value of these Certificates may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.</p> <p><b>The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.</b></p>

Société Générale

**B.19/B.2: Sede legale, forma giuridica, legislazione e paese di costituzione**

Sede legale: 29, boulevard Haussmann, 75009 Parigi, Francia. Forma giuridica: Società per azioni a responsabilità limitata (société anonyme). Legislazione di riferimento dell'Emittente: diritto francese. Paese di costituzione: Francia.

**B.19/B.4b: Tendenze note suscettibili di influire sul garante e sui settori in cui opera**

Société Générale continua ad essere soggetta ai consueti rischi ed ai rischi inerenti alla propria attività illustrati al Capitolo 4 del Documento di Registrazione depositato l'8 marzo 2018 e, nella sua versione aggiornata, depositato il 7 maggio 2018.

In un contesto di stabile crescita mondiale, diversi rischi continuano a pesare sulle prospettive dell'economia globale: rischi di nuove tensioni finanziarie in Europa, rischi di nuove turbolenze (finanziarie, sociali e politiche) nelle economie emergenti, incertezze afferenti a misure di politica monetaria non convenzionali attuate nelle principali economie sviluppate, l'incremento dei rischi legati al terrorismo nonché alle tensioni geopolitiche o protezionistiche.

In particolare, il Gruppo potrebbe essere interessato da:

- rinnovate tensioni finanziarie nell'Eurozona risultanti da un ritorno dei dubbi sull'integrità dell'unione monetaria, ad esempio nel periodo che precede le elezioni in un contesto di ascesa delle forze politiche euroscettiche;
- paure riguardanti il possibile irrigidimento delle barriere commerciali internazionali, in particolare nelle economie maggiormente sviluppate (Stati Uniti d'America o, nel contesto della Brexit, il Regno Unito ad esempio);
- un'improvvisa crescita dei tassi di interesse e della volatilità dei mercati (obbligazioni, azioni e materie prime), che potrebbero essere innescate da paure inflazionistiche, tensioni commerciali o scarsa comunicazione tra le principali banche centrali in caso di modifiche delle proprie politiche monetarie;
- un drastico rallentamento dell'attività economica in Cina, innescato dalla fuoriuscita di capitali dal paese, da pressioni al deprezzamento sulla valuta Cinese e, per contagio, sulle valute degli altri mercati emergenti, nonché da un calo del prezzo delle materie prime;
- un peggioramento delle tensioni geopolitiche nel Medio Oriente, nel Mar Cinese Meridionale, nella Corea del Nord o in Ucraina. Ulteriori tensioni tra i paesi dell'occidente e la Russia potrebbero portare ad un incremento delle sanzioni nei confronti di quest'ultima;
- tensioni socio-politiche in alcuni paesi che dipendono dai proventi del petrolio e del gas e che hanno la necessità di adeguarsi all'inversione dei prezzi delle materie prime.

Da un punto di vista normativo, H1 2018 è stato segnato, in particolare, dal processo legislativo europeo avente ad oggetto i testi CRR2/CRD5, e pertanto dalla revisione della direttiva sull'adeguatezza patrimoniale e della normativa CRR. Si prevede che ciò continuerà durante H2 includendo le tematiche MREL (Minimum Required Eligible Liabilities) e TLAC (Total Loss Absorbing Capacity). Tuttavia, non è stata ancora inserita nell'agenda politica delle istituzioni legislative europee la trasposizione nella normativa europea dell'accordo finalizzante le riforme di Basilea III: uno studio di impatto sarà avviato dall'EBA e servirà a disegnare la futura normativa CRR3. Altri temi attuali riguardano in particolare la revisione della riserva di capitale sistemica per le banche di rilevanza sistemica, le previsioni della ECB in termini di accantonamento delle riserve di crediti in sofferenza e la revisione del regime per le imprese di

investimento in Europa.

- In caso di mancato pagamento da parte dell'Emittente, i Portatori dei Certificati non intraprenderanno alcun procedimento, legale o di altro tipo, né avvanzeranno pretese nei confronti dell'Emittente. <b>D.6</b>	<b>Principali informazioni relative ai principali rischi specifici dei titoli e avvertenze in merito ai rischi di perdita del valore di tutto o parte del proprio investimento da parte degli investitori</b>	<p>I termini e le condizioni dei Certificati possono prevedere disposizioni ai sensi delle quali il verificarsi di determinate turbative di mercato potrebbe comportare ritardi nel regolamento dei Certificati ovvero determinate modifiche. Inoltre, nel caso di eventi che interessino gli strumenti sottostanti, i termini e le condizioni dei Certificati consentono all'Emittente di sostituire gli strumenti sottostanti con strumenti sottostanti nuovi, cessare l'esposizione alle attività sottostanti e applicare un tasso di riferimento ai proventi così ottenuti fino alla data di scadenza dei Certificati, prorogare la data di scadenza dei Certificati, rimborsare anticipatamente i Certificati sulla base del relativo valore di mercato, o detrarre da qualunque importo dovuto il maggiore costo di copertura, e in ciascun caso senza il preventivo consenso dei Portatori dei Certificati.</p> <p>I pagamenti (sia in relazione al capitale sia agli interessi, e sia a scadenza che ad altre date) relativi ai Certificati sono calcolati con riferimento a uno o più sottostanti, il rendimento dei Certificati si basa sulle variazioni del valore del sottostante, il quale può oscillare. Si richiama l'attenzione dei futuri investitori sul fatto che i Certificati potrebbero essere volatili e che gli investitori potrebbero non percepire alcun interesse e perdere tutto il o una parte sostanziale del capitale.</p> <p>La Garanzia costituisce un'obbligazione contrattuale generale e non</p>

		<p>garantita del Garante e di nessun altro soggetto. Qualsiasi pagamento inerente ai Certificati è correlato altresì all'affidabilità creditizia del Garante.</p> <p>Si richiama l'attenzione di coloro che desiderano investire nei Certificati che beneficiano della Garanzia sul fatto che, in caso di mancato pagamento da parte di un Emittente, gli importi cui hanno diritto i Portatori dei Certificati si limiteranno agli importi ottenuti tramite un'apposita azione da promuoversi ai sensi della Garanzia e in conformità ai relativi termini, ed essi non avranno alcun diritto di istituire alcun procedimento, di natura giudiziaria o altrimenti, né di avanzare alcuna pretesa nei confronti dell'Emittente.</p> <p>La Garanzia è una mera garanzia di pagamento e non una garanzia relativa alla performance dell'Emittente rilevante né ad alcuno degli altri obblighi dello stesso ai sensi dei Certificati, che beneficiano della Garanzia.</p> <p>Société Générale opererà in qualità di emittente ai sensi del Programma, di Garante dei Certificati emessi dall'Emittente e di fornitore di strumenti di copertura per l'Emittente. Di conseguenza, gli investitori saranno esposti non solo al rischio di credito del Garante, ma anche ai rischi operativi derivanti dalla mancanza di indipendenza del Garante con riguardo all'assunzione dei propri doveri e obblighi in qualità di Garante e fornitore di strumenti di copertura.</p> <p>I potenziali conflitti di interesse e i rischi operativi derivanti da tale mancanza di indipendenza dovrebbero in parte essere mitigati dal fatto che all'interno del Garante, l'implementazione della Garanzia e la fornitura di strumenti di copertura compete a divisioni differenti, ognuna gestita come unità operativa distinta, segregata da barriere informative (i cosiddetti Chinese Walls) e gestita da team diversi.</p> <p>L'Emittente e il Garante, e qualunque delle rispettive controllate e/o affiliate, in relazione alle altre rispettive attività commerciali, potrebbero essere in possesso di, o acquisire, informazioni rilevanti in merito alle attività sottostanti. Tali attività e informazioni potrebbero comportare conseguenze negative per i Portatori dei Certificati.</p> <p>L'Emittente e il Garante e qualunque delle rispettive controllate e/o affiliate potrebbero operare in altre vesti in relazione ai Certificati, ad esempio in qualità di market maker, agente per il calcolo o agente. Pertanto, potrebbero verificarsi potenziali conflitti di interesse. In relazione all'offerta dei Certificati, l'Emittente e il Garante e/o le rispettive affiliate potrebbero stipulare una o più operazioni di copertura con riguardo a una o più attività di riferimento o relativi derivati, suscettibili di incidere sul prezzo di mercato, sulla liquidità o sul valore dei Certificati.</p> <p>La regolamentazione e la riforma dei "benchmarks" potrebbe influenzare negativamente il valore dei Certificates che si riferiscono o sono connessi a tali "benchmarks"</p> <p>Nel corso della vita dei Certificati, il valore di mercato degli stessi potrebbe risultare inferiore al capitale investito. Inoltre, in caso di insolvenza da parte dell'Emittente e/o del Garante potrebbe verificarsi la perdita totale del capitale investito.</p> <p><b>Si richiama l'attenzione degli investitori sul fatto che potrebbero incorrere nella perdita totale o parziale del proprio investimento.</b></p>

<b>E.4</b>	<b>Descrizione di qualunque interesse rilevante ai fini dell'emissione/offerta, ivi compresi i conflitti di interesse</b>	<p>Fatte salve le eventuali commissioni spettanti al/i dealer, per quanto a conoscenza dell'Emittente nessuno dei soggetti coinvolti nell'emissione dei Certificati ha un interesse rilevante nell'offerta. Infine, le attività di Société Générale sullo/sugli strumento/i finanziario/i sottostante/i, per conto della proprietà ovvero per conto dei propri clienti, oppure il porre in essere transazioni di copertura, può anche avere un impatto sul prezzo di questi strumenti e sulla loro liquidità, e ciò potrebbe configgere con gli interessi dei Portatori dei Certificati.</p>
