

MiFID II product governance – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Certificates, taking into account the five categories referred to in item 18 of the Guidelines published by ESMA on 5 February 2018, as well as the determination of the appropriate distribution channel, has been made by the manufacturer. Any person subsequently offering, selling or recommending the Certificates (a distributor) should confirm with the manufacturer the manufacturer's target market assessment and suggested distribution strategy for the Certificates; however, a distributor subject to MiFID II remains responsible for undertaking its own target market assessment in respect of the Certificates (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

## 2. RATINGS

The Certificates to be issued have not been rated.

## 3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Certificates has an interest material to the offer.

The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Certificates and Calculation Agent of the Certificates.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Certificateholders on the other hand cannot be excluded.

Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the Certificates or possession of non public information in relation with them) and those of the Certificateholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Certificateholders.

6. **HISTORIC INTEREST RATES** (*Floating Rate Certificates only*)

7. **PERFORMANCE AND EFFECT ON VALUE OF INVESTMENT**

(i) **PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT**  
(*Structured Certificates only*)

The value of the Certificates, the payment of a Coupon amount on a relevant interest payment date to a Certificateholder, the payment of an automatic early redemption amount on a relevant automatic early redemption date, and the payment of a redemption amount to a Certificateholder on the final exercise date will depend on the performance of the underlying asset(s), on the relevant valuation date(s).

The value of the Certificates is linked to the positive or negative performance of one or several underlying instrument(s) within the basket. The amount(s) to be paid is/are determined on the basis of the condition which is satisfied (or not) if the performance of one or several underlying instrument(s) within the basket is higher than or equal to a predefined barrier performance. Performance of one or several underlying instrument(s) within the basket can be averaged.

The Certificates may provide for an automatic early redemption linked to a specific event. Therefore, this may prevent the Certificateholders from benefitting from the performance of the underlying instrument(s) over the whole period initially envisaged.

Investment in Certificates including fixed interest rate involves risks linked to the fluctuation of the market rates which could have negative effect on the value of these Certificates.

The terms and conditions of the Certificates may include provisions under which upon the occurrence of certain market disruptions delays in the settlement of the Certificates may be incurred or certain modifications be made. Moreover, in case of occurrence of events affecting the underlying instrument(s), the terms and conditions of the Certificates allow the Issuer to substitute the underlying instrument(s) by new underlying instrument(s), cease the exposure to the underlying asset(s) and apply a reference rate to the proceeds so obtained until the final exercise date of the Certificates, postpone the final exercise date of the Certificates, early redeem the Certificates on the basis of the market value of these Certificates, or deduct from any due amount the increased cost of hedging, and in each case without the consent of the Certificateholders.

Payments (whether in respect of principal and/or interest and whether at final exercise or otherwise) on the Certificates are calculated by reference to certain underlying(s), the return of the Certificates is based on changes in the value of the underlying(s), which may fluctuate. Prospective investors should be aware that these Certificates may be volatile and that they may receive no interest and may lose all or a substantial portion of their principal.

During the lifetime of the Certificates, the market value of these Certificates may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.

**The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.**
